REMOTE BRANCHES IN GIT 2-2

Remote Connections in Git

Setting Up and Deleting
Remote Branches

Creating

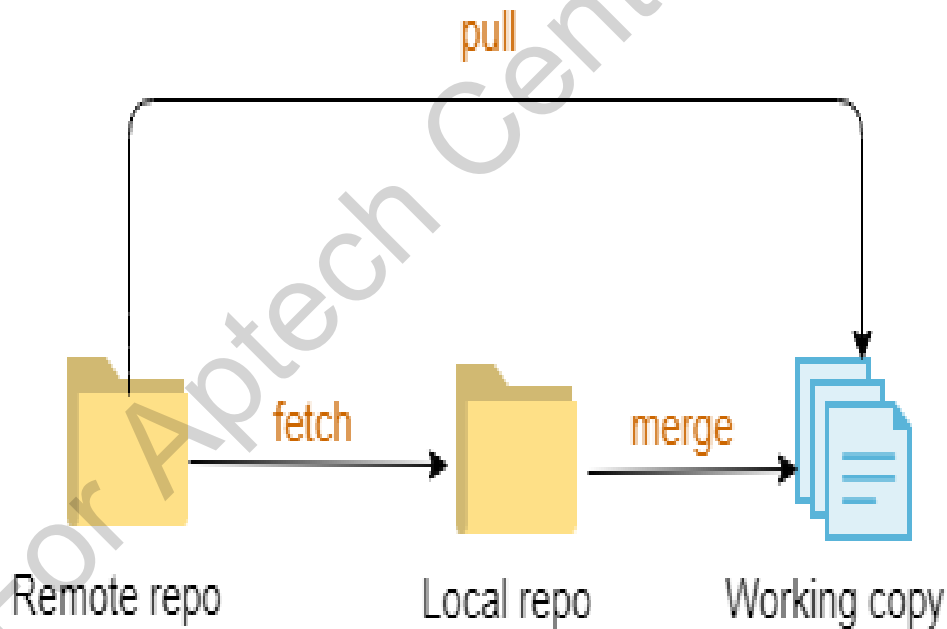

Deleting

This can be done using commands.

PULLING IN GIT 1-2

Mechanism of Pulling in Git

Approaches to Pulling

PULLING IN GIT 2-2

Mechanism of Pulling in Git

Approaches to Pulling

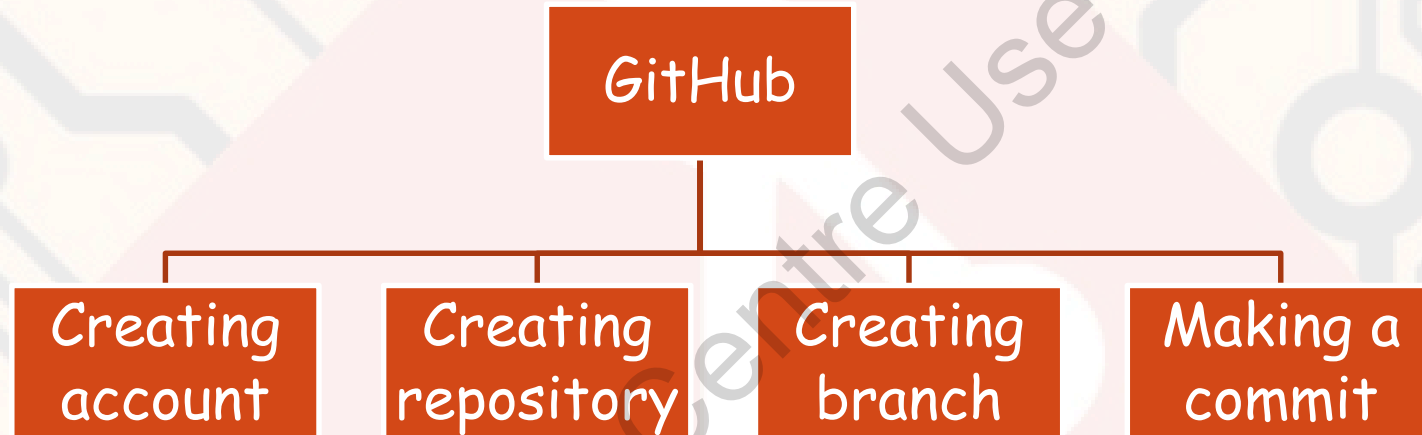

Pulling

Pull

Pull without commit

Verbose Pull

GITHUB BASICS

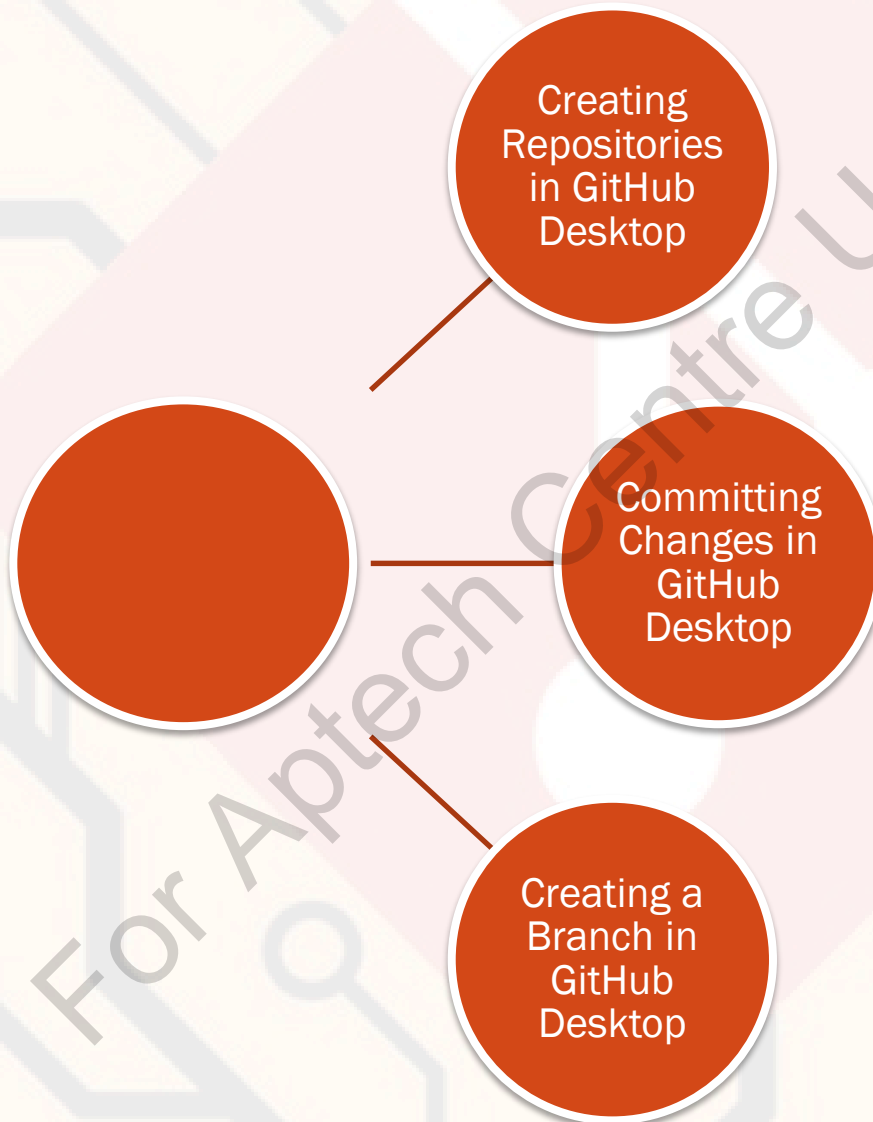

GITHUB DESKTOP 1-2

- Installing GitHub Desktop

GITHUB DESKTOP 2-2

SUMMARY

- Synchronization is achieved in *Git* via remote connections
- Pulling accomplishes collaboration between various developers
- GitHub gives users the functionality of *Git* with extra features
- GitHub Desktop as a GUI client makes usage of *Git* easier
